

1. Locate 3 sources using your intellectual reasoning ability and search skills that add additional information to what Capote chose to include in his novel. Remember, this book is a work of art, not entirely factual, perhaps, or at least, it may lack in including the full picture of the events. This is one man's perspective--Truman Capote's.
2. Check the veracity of what Capote included.
3. Check to see what Capote chose to leave out.
4. Your sources should include only reliable sources.

Then:

1. Write a brief analytical paper, detailing your results. We will include a bibliography page, so place the links to your sources in your document until that time arrives.
2. This paper will be around 1000 words (two single-spaced pages).
3. Create the document in Drive, your Period 8 folder, then the subfolder "In Cold Blood."
